11. Promotes self-study and attitude to research

	Excellent	Good	Satisfactory	Average	Need to Improve
Promotes self-study and attitude to research	45	45	5	3	2

90% of the respondents are happy with the relevance of the curriculum as it promotes self-study attitude to research. Less than 2% feels it should be improved.

Based on the response from the feedback form and open-ended questions following finding were made.

1. There should be provision for the students to take up an Internship Programme during their course of study which will eventually help them to get into the field of research and find better job opportunities.
2. There should be a provision for the students to choose the advanced courses as complementary / additional courses from other universities and the credit has to be added to their consolidated grade card.

3. The limited intake of students and introduction of the new programmes force students to leave the state and go abroad.
4. To enhance employability among the students, the institution-initiated certificate courses and add-on courses in emerging areas to sharpen and equip them with essential skills for effectiveness in the workplace.
5. Students must be given hands-on training on analytical instruments to fetch better job opportunities and to get admission to premier institutes in India and abroad for higher education.
6. Honing leadership skills through various clubs and cells to promote entrepreneurship.
7. Restricted autonomy of higher education regarding curriculum and academic work standards provides lesser possibilities for change in the curriculum of conventional programmes.
8. Appointing faculties with industrial experience will provide greater exposure to the students.
9. Financial assistance to economically backward students through scholarships.
