9. Overall, the curriculum meets your expectations

	Excellent	Good	Satisfactory	Average	Need to Improve
Overall rating	19.35	51.23	20.56	3.43	5.43

Based on the response from the feedback form and open-ended questions following finding were made.

1. Students must be given hands-on training on analytical instruments to fetch better job opportunities and to get admission to premier institutes in India and abroad for higher education.
2. Honing leadership skills through various clubs and cells to promote entrepreneurship.
3. The limited intake of students and introduction of the new programmes force students to leave the state and go abroad.
4. Financial assistance to economically backward students through scholarships.
5. Restricted autonomy of higher education regarding curriculum and academic work standards provides lesser possibilities for change in the curriculum of conventional programmes.

6. Appointing faculties with industrial experience will provide greater exposure to the students.
7. To enhance employability among the students, the institution-initiated certificate courses and add-on courses in emerging areas to sharpen and equip them with essential skills for effectiveness in the workplace.
8. There should be a provision for the students to choose the advanced courses as complementary / additional courses from other universities and the credit has to be added to their consolidated grade card.
9. There should be provision for the students to take up an Internship Programme during their course of study which will eventually help them to get into the field of research and find better job opportunities.
